Professional Summary

Eighth-semester Economics student at the National Autonomous University of Mexico (UNAM), GPA 9.40/10.0, specializing in international macroeconomics, applied econometrics, and financial analysis automation. Currently at Banco de México's International Economic Analysis Division, building automation tools in R and VBA to monitor global markets and monetary policy decisions. I combine quantitative rigor with technical execution (Python, R, VBA) to turn complex data into fast, reliable decision-making inputs. Seeking an analyst/intern role in investment banking, emerging markets, or trading, where I can bring this combination of macro analysis and automation.

Education

B.A. in Economics

National Autonomous University of Mexico (UNAM)

August 2022 – Present

Cumulative GPA: 9.40/10.0

Areas of Interest: Econometrics, International Macroeconomics, Financial Economics.

Professional Experience

Banco de México – General Directorate of Economic Research

Social Service Intern, International Economic Analysis Division

March 2026 – Present

- Design and maintenance of tracking agendas for global macroeconomic indicators and monetary policy decisions across 10+ central banks, with daily monitoring of releases and market events.
- Use of Bloomberg Terminal to download and update economic and financial data series, build market charts, and maintain databases used by the international analysis team.
- Preparation of executive summaries on central bank communications, brokerage house reports, and monetary policy statements to support the team's decision-making.
- Construction of regional forecast dashboards (US, Eurozone, European Union, Japan) based on market expectations, reducing the team's manual update time.
- Development of VBA macros and R scripts to automate database update processes, table generation, and calendar reminders linked to indicator releases.

Key Projects

- **Forecast Table Automation (VBA):** module that processes Bloomberg data (*MUNDIAL.csv*) and automatically generates regional forecast tables for the US, Eurozone, European Union, and Japan, eliminating manual weekly table-building.
- **Monetary Policy Decisions Agenda (R):** script that reads central bank decision databases and generates reports with conditional formatting and automatic visual flagging of each decision's status.
- **Central Bank Communication Analysis (Thesis, NLP):** Python pipeline (BETO embeddings, HDBSCAN clustering, SVM classification) to measure the hawkish/dovish tone of Banxico's communications, grounded in a credibility-vs-confidence theoretical framework.

Technical Skills

Programming & Quantitative Analysis: Python (Pandas, NumPy, Statsmodels), R (tidyverse, time series), EViews, VBA.

Macro-Financial Models: VAR/SVAR and DSGE modeling, time series analysis.

Market Data: Bloomberg Terminal (data download and updates, chart building, indicator and expectations monitoring).

Office Tools: Advanced Excel (macros, pivot tables, conditional formatting), L^AT_EX.

Volunteer Work

National Association of Economics Students (ANEE)

Secretary of the National Academy

January 2025 – February 2026

- Coordination of nationwide conference series, including topic definition and content oversight for academic events.
- Editorial coordination of *Horizonte Económico* journal: liaising with academics for peer review, reviewer assignment, and tracking the review process.
- Preparation of technical reviews and feedback on submitted articles, as well as coordination of editing and issue consolidation for publication.
- Coordination across regional chapters to strengthen the Association's technical training activities.

Publications

- *The Bitcoin Paradox: From the Labyrinth of Crete to the Tower of Babel*. REDEFFIM Blog, Institute of Economic Research, UNAM (2025).
- *From the Labyrinth of Crete to the Tower of Babel: The Decentralization Paradox in Bitcoin's Rise*. Diario de Querétaro (2025).
- *Analysis of Food Security and Sovereignty vis-à-vis Neoliberalism in Mexico: The Case of Corn*. Revista La Mano Visible de la Economía (2024).

Additional Training

- **Time Series in Python** – *Escuela de Métodos, CIDE* January 2026
- **Introductory Workshop on VAR and SVAR Models** – *School of Economics, UNAM* January 2026
- **Introductory Workshop on DSGE Models** – *School of Economics, UNAM* December 2025
- **Research Seminar in Behavioral Sciences** – *School of Economics, UNAM* December 2025
- **Contemporary Financial Economics** – *Institute of Economic Research, UNAM* October 2025
- **16th Summer School on Social Mobility** – *Centro de Estudios Espinosa Yglesias (CEEY)* July 2025
- **Statistical Analysis and Data Visualization with Stata** – *School of Economics, UNAM* November 2023

Honors & Affiliations

AEFE Scholarship, UNAM, awarded for academic excellence and research potential.

2022 – Present

Affiliations: National Association of Economics Students (ANEE); Colegio de Economistas Metropolitanos de la Ciudad de México, A.C.
